Part 3

In Part 3, you are asked to assess a set of hypothetical actions that might be completed by **other participants in an experiment**.

For each of the following giving/taking actions, please guess the most common response provided by other participants in this experiment, where:

1. = very socially inappropriate
2. = socially inappropriate
3. = somewhat socially inappropriate
4. = somewhat socially appropriate
5. = socially appropriate
6. = very socially appropriate

If your assessment of *one randomly selected action* is the same as the most common response provided by other participants in this experiment, you will earn $1.00. Your payment will be processed within 2 - 3 days after all experimental sessions have been completed.
